

Stihl RMI 422

Description

RMI 422 is capable of areas up to 800m²

As it is fully automated, once the iMow is installed it will mow, charge and adapt its schedule all by itself. Thanks to an efficient mulching blade the lawn will look lush and green without ever having to dispose of the grass clippings. Equipped with a powerful battery, the RMI 422 can handle lawns up to 800 m², gradients up to 35% and is designed to do all this in the shortest time possible, allowing you full access to your garden when you want it. The RMI 422 comes with a 5-year extended domestic warranty (subject to registration and annual servicing). For more information contact your local Ripon Farm Services branch, The STIHL iMow robotic mowers comply with all applicable safety standards.

+ a Free Stihl FSA 45 Cordless Strimmer with every purchase (see second image for details)
