

Albutt C560 Grab

Description

c/w KV tines and standard Kramer brackets.

The Albutt C560 is a heavy-duty fork and grab attachment designed for telehandlers and loading shovels, often featuring a 60-inch (approx 1.5m - 1.6m) working width. It features a solid back for cleaner handling, high-capacity rams with grab stops for cylinder protection, and a combination of Hardox and forged tines for enhanced durability and strength.
