

# Husqvarna Automower 320 NERA with EPOS accessory

## Description

Wire free installation available The Automower NERA range, compatible with the intelligent Husqvarna EPOS Plug-in kit, offers you the freedom of completely customisable lawn maintenance.

The Automower NERA range, compatible with the intelligent Husqvarna EPOS Plug-in kit, offers you the freedom of completely customisable lawn maintenance, by creating virtual boundaries through satellite based technology, instead of physical wires.

Automower Connect app

Enjoy the convenience of complete command from your smartphone with the Husqvarna Automower Connect app. From edge to edge you can manage and monitor your Husqvarna

robotic mower freeing you from the task of mowing your lawn with the reliability to always achieve a premium cut. Make your lawn care as carefree as possible with Automower Connect. Cellular, Wi-Fi and Bluetooth connectivity available, dependent on model.

\*Bluetooth connectivity offers up to 30 meters range. Wi-Fi connectivity gives coverage from anywhere in the world whilst the mower is connected to Wi-Fi. Cellular communication gives coverage from anywhere in the world and includes a 10 years mobile data contract\*. \*The included Automower Connect 10 years contract only applies if a third party provides sufficient mobile coverage in the area. GPS-assisted navigation - PATENTED An onboard GPS system creates a map and register which parts of the garden it has covered and adjusts its mowing pattern accordingly. An onboard GPS system creates a map of the garden, including where the boundary and guide wires are installed. Husqvarna Automower will then register which parts of the garden it has covered and adjusts its mowing pattern accordingly. This will ensure optimised lawn coverage and an excellent cutting result.

#### Smart Home integration

Fully integrate your robotic mower into your smart home. Voice-control it with Alexa and Google Home, use it in IFTTT routines and more. All Husqvarna Automower models with cellular or Wi-Fi connectivity are compatible with Amazon Alexa and Google Home. This means that you can execute the most common voice commands such as start, stop, park and get status updates from your mower by simply asking your voice assistant, use it in IFTTT routines and more. With Automower Connect you can also integrate your robotic mower with your Gardena Smart System and let mowing and watering work together.

#### Smart Connections with IFTTT

Integrate Automower even more into your smart home by using it in IFTTT applets. Connect to one of our smart connections in the Automower Connect app, or even create your own routine with IFTTT. Perhaps you want your mower to park when your kids come home from school or when the weather forecast shows heavy rain Or perfectly synchronise it with the weather IFTTT (If This, Then That) is free and easy to use.

User interaction with high-resolution colour display, jog wheel and status indicators, provides an intuitive yet sophisticated way of controlling your mower. The new Automower Access user interaction with high-resolution colour display, jog wheel and status indicators, provides an intuitive yet sophisticated way of controlling your mower. The icon-based design language integrates intuitively with the Automower Connect smartphone app, providing a seamless user experience.

#### Automower Accessory Port

Available on the Automower NERA range, the accessory port enables plug-in accessories to be attached to the mower offering additional features and technology. Like the Husqvarna EPOS Plug-in Kit which offers wire free installation for customisable lawn care.

#### Systematic Passage Mowing

Automatically switch mowing pattern from random mode to systematic mode in narrow passages. To deliver excellent cutting results everywhere, the robotic mower can be set to

automatically switch mowing pattern from random mode to systematic mode in narrow passages.

#### Weather timer

Adjusts the working time to the lawns growth rate, which decreases wear on lawn and mower. Adjusts the working time to the lawns growth rate, meaning that Husqvarna Automower will maximise its mowing time during periods of strong grass growth. In sunny or dry weather, or late in the season, the mower will spend less time mowing, which decreases wear on lawn and mower.?

#### FOTA - Firmware-Over-The-Air

Possibility to make software updates automatically, over the air, via the Automower Connect app to enable new features and updates.

#### GeoFence

Receive notifications via the Automower Connect app if your mower is moved outside your predefined GeoFence area. By defining the GeoFence area for your mower via the Automower Connect app you will receive notifications to your phone if your mower is moved outside this predefined area. Minimising the risk of theft and letting you know where your mower is at all times.

#### Frost guard

Automatically interrupts the mowing schedule in frosty conditions, helping to protect the lawn. The robotic mower automatically interrupts the mowing schedule in frosty conditions, helping to protect the lawn.

#### Automatic passage handling - PATENTED

Automatically senses narrow passages and finds its way even through the smallest passages. Husqvarna Automower automatically senses narrow passages and finds its way even through the smallest passages. It will vary its route through the passage to avoid unpleasant tracks.

#### Target height for improved lawn quality

Improves the lawn quality by adjusting the cutting height from MAX to a defined height over a 10 days period. For improved lawn quality, TargetHeight lowers the cutting height automatically from MAX to defined height over a 10 days period.

#### Spot cutting

Special mode to quickly mow a limited area of longer grass. Special mode to quickly mow a limited area of longer grass. This is especially useful for areas beneath for example garden furniture, once the furniture is removed. Place the mower in the desired area and choose Spot cutting mode. The mower will mow in tight spirals and when finished resume in automatic mode.

#### Spiral cutting

Automatic functionality where mower switches cutting technology to systematic spiral pattern to even out grass height differences. Automatic cutting functionality to even out grass height differences. Cutting disc sensors detect whether the mower enters area with higher grass and switches cutting technology to systematic spiral pattern.

## Profiles

Create several profiles with individual settings, making it easier to share the mower between numerous locations. Makes life easier when sharing one mower on numerous locations. With personal names on each profile and installation it is easy to switch between different setups via the menu on the mower.

## Electric height adjustment - PATENTED

Electrically operated cutting height adjustment. The cutting height is swiftly adjusted by the electrically operated height adjustment, easily accessible from the main menu or via the Automower Connect app.

## Easy cleaning

Easy washability of the exterior and underneath of the robotic mower by a garden hose. You can wash the exterior and underneath of the robotic mower with a garden hose. By using the attached maintenance tool, the cover can easily be removed, for easy cleaning and reachability everywhere.
