

Ifor Williams TT

Description

TT2515 (8' x 5'), the smallest of the twin axle range, has a maximum gross weight of 2700kg with the option of a manual or electric hydraulic pump (and self-contained 12v battery). This trailer comes with a strengthened aluminium floor as standard. Larger models TT3017 (10' x 5'6") and TT3621 (12' x 6'6") have electrically operated tipper mechanisms with a self-contained 12v battery as standard. The tipper trailer range is fitted with a planked aluminium floor on all models. Lashing points, winches and mesh side extensions are available as accessories.
