

Kuhn GMD 10 - 100

Description

Mowers in the GMD 10 and GMD 100 series are adapted to small and medium farm operations that require high standards in terms of dependability and cutting quality. Their compact design makes them perfectly compatible with smaller hp tractors. They are equipped with the 100 series cutter bar (except GMD 355 which has the OPTIDISC cutter bar) and other equipment that gives them the strength necessary for mowing operations.

GMD 10 Series comprises 4 models from 1.60 to 2.80 metres: GMD 16 (1.60 m), GMD 20 (2.00 m), GMD 24 (2.40 m), GMD 28 (2.80 m). GMD 100 Series includes 4 models from 2.40 to 3.51 metres: GMD 240 (2.40 m), GMD 280 (2.80 m), GMD 240 (3.10 m), GMD 355 (3.51 m).
