

Kuhn MDS .2

Description

Discover the MDS .2 fertiliser spreaders with working widths of 10 to 24m and a single-cone hopper capacity of 500 to 2,000l. Fertilising specialised crops (vines, orchards, hops, vegetables) and grain crops requires mastery and extreme precision. The new range of MDS .2 mounted fertiliser spreaders provides you with a simple solution that is adapted to all of your operations. You have a multitude of possibilities in terms of size, capacity, outlet opening and closing and even regulation. With a maximum hopper capacity of 2,000l, the new MDS 20.2 mounted fertiliser spreader completes the MDS .2 range with a higher capacity and more autonomous machine. All MDS .2 models integrate the single-cone hopper that enables complete hopper emptying when spreading on slopes. Fertilising specialised crops (vines, orchards, hops, market gardens) and grain crops demands mastery and extreme precision. The KUHN range of MDS fertiliser spreaders offers a simple and adapted solution to all of

your operations. The single-cone hopper allows complete emptying, even when spraying on slopes.
