

## Kuhn PROFILE 2 DS

### Description

The PROFILE 2 DS range starts at 12 m<sup>3</sup> and features models with capacities up to 20 m<sup>3</sup> - ideal for farms with height and width constraints feeding fibrous rations!

These models are equipped with small diameter mixing augers that require less power.

The PROFILE 2 DS twin-auger vertical mixer wagons feature a simple and highly functional design with a low loading height. The wheels are mounted under the tub to reduce overall machine width to just 1.85m, enabling the machine to fit in different distribution configurations.
