

Kuhn PROFILE CROSSMIX 2 CS

Description

The PROFILE CROSSMIX 2 CS mixers have 2 vertical augers, recessed wheels, a narrow hopper and feed out via a cross-conveyor. Available in 14 to 20 m³ capacities, these machines are suited to herds of between 70 and 150 cattle. The PROFILE CROSSMIX 2 CS range is designed with the wheels outside the tub for farms with buildings that are far apart across uneven or difficult terrain. The large diameter tyres integrated into the chassis ensure excellent driving in difficult conditions. PROFILE CROSSMIX 2 CS mixer wagons are designed to go anywhere.

Another key feature of the PROFILE CROSSMIX 2 CS range is undoubtedly the distribution

quality (speed and regularity), with its large cross-conveyor positioned at the front of the machine.
