

Kuhn PROFILE PLUS 1 DL

Description

The PROFILE PLUS 1 DL mixers have 1 vertical auger, a straw-blowing turbine, a large hopper and feed out via direct side doors. Available in 12 to 15 m³ capacities, these machines are suited to herds of between 60 and 110 cattle. The largest capacity with the lowest height on the market!

These vertical single auger mixer wagons offer a new solution for all farmers with difficult to access buildings and/or who need a variety of distribution configurations.

Compact size is the key feature of these PROFILE single auger mixer wagons. The tub

geometry enables larger capacities at lower heights, for example the 13 m3 model comes in at just under 3 m overall height.
