

## Kuhn PZ 1021 F

### Description

The PZ 1021 F series models complement the proven features of the PZ mowers. Optimal mowing performance is the key principle. The KUHN PZ 2721 F, PZ 3021 F and PZ 3221 F? front drum mowers stand for optimal mowing performance in the most challenging conditions. The proven features of PZ mowers are complimented by new updates to meet today?s and tomorrows demands. The stable and rigid mainframe together with a robust driveline make this mower suitable for both regular and larger tractors. You have two choices of headstock to fit your working conditions.

The PZ 3221 F provides a large 3.19 m working width, combining low machine weight with a narrow swath. This makes this mower the ideal solution for working in hilly conditions with tractors equipped with double tyres.
