

## Kuhn PZ 320

### Description

Suitable for medium and large-sized farms, the PZ 320 stands for high-capacity and high-quality mowing. Improve the quality of your forage and reduce downtime in every condition by using the exclusive LIFT-CONTROL suspension system. The PZ 320 has a direct driveline with an integrated slipclutch and freewheel. For stable transport the machine has a folding transport position of 120 degrees therefore the weight of the machine is placed more evenly between the rear wheels. The foldable front cover and FLEXPROTECT side guards for easy access to the drums, ideal for the daily inspection and maintenance of the mower unit.

The PZ 320 is fitted as standard with LIFT-CONTROL. This hydro-pneumatic suspension system continually ensures a uniform ground pressure, a lower pulling power requirement and enables non-stop mowing.
