

## Kuhn SITERA

### Description

The SITERA integrated mechanical seed drill has a working width of 3.00m. It is compatible with HR 3020 / 3030 / 3040 power harrows and CD 3020 disc combinations. The SITERA seed drill comes with seeding units with Suffolk coulters, double-disc coulters or SEEDFLEX. The SITERA seed drill is a very easy-to-handle machine with centralised, continuous adjustment of seeding depth. You can control the machine using an ISOBUS CCI terminal, the tractor's ISOBUS terminal or the new VT 30 terminal. The new design, perfect visibility, balanced load distribution and forward-set hopper are all elements designed to give you a pleasant-driving experience, both at work and during transport.
