

Nugent P4318T Plant Trailer

Description

14'3 x 6'1 Tri Axle Plant Trailer c/w closed sides, LED lights, full ramp tail door, 185/70R13 tyres & wheels.

The Nugent Plant trailer has been designed for maximum efficiency. Following extensive research, Nugent has designed a weight to load ratio that gives the best payload, while a low centre of gravity with a bed height of 403mm gives a favourable loading angle which is great for equipment with low ground clearance. This fabricated trailer with fully welded chassis, combined with Nugent's patented Dual Drive™ suspension, makes it safer and smoother than other trailers on the market.
